

## **Crowd-Proofing**

To minimize errors and reduce subjectivity in The Spreadsheet, crowd-proofing is the next step in the process.

As you use it to direct you to a PA program's website, you may come across discrepancies between what you find there versus what you find in the data elements of The Spreadsheet. We want to know those so we can correct them on updated Spreadsheets.

Also, please let us know even simple corrections, such as spelling errors, or elements that need clarification.

Please go to the appropriate links for Survey Monkey to tell us what you found.

PA Program representative: <https://www.surveymonkey.com/r/PAprogramRep>

Health Professions Adviser / Student: <https://www.surveymonkey.com/r/HPAs-Students>

If we make a change to The Spreadsheet from the information you provide and you agree, the first to send us the discrepancy will be acknowledged on updated Spreadsheets.

The Spreadsheet will be closed on 31 December 2024 for data analysis in preparation for submission to a peer-reviewed academic journal.

After 31 December 2024, Crowd-proofing and Spreadsheet updates will still proceed as an on-going process.
